

# aaudio 范例: 上传文件

```
//上传文件
import console.int;
import console.progress;
import web.rest.jsonLiteClient;

var http = web.rest.jsonLiteClient();
var api = http.api("https://httpbin.org/post");

//进度条
var bar = console.progress();

//使用文件表单上传文件，可以指定多个字段
var result = api.sendMultipartForm( {
    file = "@\b.upload.aaudio";
},function(sendData,sendSize,contentLength,remainSize){
    /*
    sendData 为本次上传数据;
    sendSize 为本次上传字节数;
    contentLength 为要上传的总字节数;
    remainSize 为剩余字节数;
    */

    bar.setProgress((1 - remainSize/contentLength) * 100,"正在上传 .....");
}
);

console.dumpJson(result);

//直接上传文件
var api = http.api("https://httpbin.org/anything");
var result = api.sendFile( "\b.upload.aaudio"
    ,function(sendData,sendSize,contentLength,remainSize){
    /*
    sendData 为本次上传数据;
    sendSize 为本次上传字节数;
    contentLength 为要上传的总字节数;
    remainSize 为剩余字节数;
    */
    }
);

console.dumpJson(result);
```
